Sonex Builder's Workshop

Sonex offers weekend workshops at our factory in Oshkosh. These popular workshops serve many purposes. They introduce you to the Sonex philosophy, the Monnett Family and staff. They help you to determine if this is the homebuilt for you. You will learn safe construction methods along with the "ins and outs" and shortcuts to reduce build time. The workshop features classroom sessions and "hands on" construction. You will build a Sonex Workshop Project that uses solid riveting, pop riveting, and rib and spar fabrication.

You and a guest may register to attend this workshop by returning this form with the registration fee of \$200. This amount will be subtracted from the \$600 plan price if you choose to purchase Sonex plans at any point in the future.

Your attendance also comes with a \$400 discount off of a complete kit if you purchase within 30 days after the workshop. This "workshop saver program" is meant to cover your travel expenses as we feel the workshops are well worth the effort to get here. **Please visit our website for additional discounts now available!**

Please visit www.sonexaircraft.com for a daily schedule, a list of tools to bring, a map of how to get to our facility and a list of lodging recommendations. We have arranged for a Sonex discount at four Oshkosh motels: Hilton Garden Inn, Hawthorne Inn & Suites, AmericInn Lodge and Marriott Fairfield Inn. You will need to ask for the Sonex rate. Also, don't forget to inquire with your hotel, about shuttle service to and from both the airports and the workshop.
